## PROFESSIONAL PROFILE

A versatile and driven professional ready to embrace change as I transition from a career in conveyancing to pursue my newfound passion in Software Development. A solid foundation in legal processes combined with a burning enthusiasm for technology, I bring a unique blend of perspective and skill to the field. Since completing Northcoders' Software Development bootcamp, I have acquired fundamental knowledge in languages such as JavaScript, HTML, and CSS, while also exploring Python in self-directed study. I now have the necessary skills required and I am excited to leverage my diverse background and proactive approach to learning to face new challenges head on as a Junior Software Developer.

## TECHNICAL SKILLS

**Languages** | JavaScript | Python | using Node.js and browsers as environment
**Testing** | Test Driven Development (TDD) | Jest | SuperTest
**Front End** | HTML | CSS | React | Next.js | Tailwind | Lighthouse | other accessibility tools
**Back End** | SQL | PSQL | Express | Seeding | Migrations
**Hosting** | Netlify | Vercel | Render | Supabase | GitHub | Git | Version control
**Other** | Paired Programming | Technical Communication | SDL | Agile and SCRUM Methodologies

## PROJECTS

**Full Stack Hidden Gems App** | Website | Server | Front End Repo | Back End Repo | Northcoders | Next.js, Firebase, React Leaflet Maps, Geocode.maps.co API, Tailwind, Yup Validation and more
**Full Stack News Article App** | Website | Server | Front End Repo | Back End Repo | Northcoders | JavaScript, React, Express, PSQL, CSS, TDD
**Responsive Coffee Shop Website** | Website | Repo | Code Nation | HTML, CSS
**Text-based Story Game** | Repo | Code Nation | Python
**CLI Blackjack Game** | Repo | JavaScript, Chalk, TDD

## PROFESSIONAL EXPERIENCE

**2Toucans** | Web Developer Intern & Onboarding Specialist | Remote — Jan 2025 – Apr 2025
*Web Developer Intern within a creative digital agency for charities and social enterprises*

- Transformed entire onboarding system into a scalable, step-by-step process with automated task tracking and feedback collection, improving clarity, efficiency and candidate experience by over 110%
- Developed scripts to automate notifications for candidates and the HR team upon milestone completions, further improving onboarding efficiency
- Created comprehensive development environment setup documentation and led training sessions to ensure smooth adoption of updated onboarding processes across the team
- Collaborated with teams to develop responsive websites using Drupal and other technologies
- Proposed and implemented innovative web design ideas and internal process improvements, advancing the organisation's mission and supporting diversity initiatives in the tech sector

**Software Development Bootcamp** | Northcoders | Remote — Jun 2024 – Oct 2024
*Trainee Software Developer - Level 4 equivalent Full-Stack Software Development Bootcamp*

- Teamed up with other software developers to create a full stack application over a three-week period using Agile workflow

- Deepened my knowledge on the fundamentals, frontend, and backend programming of JavaScript
- Utilised an adaptable, problem-solving mindset to solve coding sprints, katas and full-stack projects
- Tackled sprints through Test Driven Development, testing expected results before solving the sprint
- Collaborated with numerous software developers on coding sprints through paired programming

**Software Development Course** | Code Nation | Remote Apr 2024
*Trainee Software Developer & Team Leader – TLM Level 2 Certificate in IT User Skills & Employability*

- Created a responsive, front end website from a pre-defined wireframe
- Managed and progressed a team for a text-based story game project as Team Leader
- Praised by my cohort lead and team members for my performance, resilience and professionalism throughout the course, and my "outstanding" conduct as Team Leader

*Took the time to explore a career that was more in line with my passions, I discovered my love for coding and have since spent time exploring the world of programming and undertaking personal development courses*

**Conveyancing Assistant** | Prosperity Law LLP | Manchester Jan 2022 – Jul 2023
*Conveyancing assistant within a multi-disciplinary law firm*

- Managed and progressed sale and purchase caseloads for prestigious property investment companies
- Drafting important legal documents such as mortgage & search reports, power of attorneys, deeds of variation, notice of assignment

**Trainee Conveyancer** | Premier Property Lawyers | Manchester Mar 2021 – Dec 2021
*Trainee Conveyancer within a high-volume conveyancing firm*

- Continuously exceeded targets with average of 133% target completion and 20% monthly case turnover
- Manage my own caseload for registered freehold sales and purchases from the point of receipt of sales of memorandum through to completion

## ADDITIONAL EXPERIENCE

**Bartender/Waitress** | Indeed Flex (agency) | Manchester Oct 2019 – present

- Experienced in wine waiting, banquet table service and festival & events
- Diligently preparing customer orders according to instructions while mindful of dietary requirements
- Maintaining an exceptional knowledge of menu options and beverages available

## EDUCATION

**Degree |** Law with Philosophy LLB | 2:1 | University of Essex | Sep 2019
**A Levels |** Philosophy & Theology, Art & Design, Law | BCC | Holy Cross College | June 2016

*Professional development courses*
**Beginner's JavaScript Course Completion** | Codecademy | April 2024
**Beginner's HTML Course Completion** | Codecademy | Dec 2023
**Beginner's CSS Course** | Codecademy | in progress
**CS50 Python** | Harvard edX CS50 | in progress

## INTERESTS & HOBBIES

- Boxing – attend women's boxing on Wednesday evenings
- Gaming – enjoy playing strategy and team games
